TCI to Conduct Live Demonstration of DecisionLender 4 at LendIt Conference

Full-Spectrum Consumer Loan Origination Solution Supports All Online Consumer Lending Programs

Islandia, NY, March 26, 2018 –Teledata Communications, Inc. (TCI) (www.tcicredit.com), a provider of cloud-based, full-spectrum consumer loan origination solutions for credit unions, banks, and finance companies, announced it has been invited to provide a live demonstration of its DecisionLender 4 loan origination platform at the LendIt Conference. The event is scheduled for April 9 through 11 at the Moscone Center West in San Francisco. The presentation is set for April 10 at 1:30 p.m., at the event's Innovation Demo Hub. In addition, TCI will be providing ongoing demonstrations of the platform to conference attendees at booth 1817.

DecisionLender 4 is a comprehensive platform that enables both online and brick-and-mortar lenders to automate all internet-based consumer loan origination processes and workflows. With responsive design, DecisionLender 4 conforms to any device for on-the-go underwriting opportunities for employees, and its consumer portal adjusts to fit any screen, allowing customers to apply for a loan online, anywhere. While utilizing the consumer portal for online lending, borrowers can upload stipulations with their phones, then sign for the loan via electronic signature. In addition, DecisionLender 4 can be configured without using time-consuming IT resources, giving lenders the ability to quickly adjust lending programs to capitalize on fast-moving market opportunities.

Among the new features available through DecisionLender 4 is its Cross Sell module, which enables lenders to offer additional loan products, such as REFI and credit cards, in real-time to applicants in the process of completing an online loan application. The Cross Sell tool can be utilized at any point of consumer contact including online, mobile, and in-branch.

"There's little debate that consumer acceptance of online lending has permeated the marketplace. It's now incumbent upon lenders to satisfy this growing demand by deploying efficient, reliable, and secure technology to automate and streamline the entire loan origination process," said William Nass, president of TCI. "We're looking forward to attending LendIt and demonstrating why DecisionLender 4 is the ideal platform to serve the needs of online lenders. Its flexibility, comprehensive features, and intuitive interface empowers lenders to increase loan activity, while also reducing associated operating costs."
