

TCI *DecisionLender*

Direct ▪ Indirect ▪ Online Lending ▪ Account Opening

TCI celebrates a terrific response to its DecisionLender 4 Administrator Training Workshop.

These seminars is primarily catered to DecisionLender 4 administrators who are responsible for making changes and modifications to their platform.

During this session, users learned to cover a fundamental understanding of the platform so they can be empowered to propose and execute on new processes and efficiencies.

“I want to personally thank you for all that you did to coordinate this training session. It was amazing, and I definitely learned so much more about the program, and ways that we can streamline current manual processes – three of which I have already implemented since returning back to the Bank.

Everything was so well coordinated, and the entire TCI Group was so welcoming – it was overwhelming to be around such an amazing group of people!”

- Jennifer Pecore, Champlain Bank
