## **TCI Announces Availability of DecisionLender 4 Leasing Module**

***Tight Integration with RouteOne and DealerTrack Platforms Enables Lenders to Calculate Valuations and Process Leases in Real-time***

**Islandia, NY, July 24, 2017** –Teledata Communications Inc. (TCI) ([www.tcicredit.com](http://www.tcicredit.com)), a provider of loan origination solutions for credit unions, banks and finance companies, today released the DecisionLender 4 Leasing Module, it enables lenders to conduct accurate, real-time calculations of many leasing factors, including valuations, residuals, and sales taxes. The module is integrated with both the RouteOne and DealerTrack platforms, thus giving lenders a fast, efficient, and precise method to originate leases.

“Leasing programs are an essential part of many lending portfolios, but have unfortunately been ignored by most loan origination providers in the marketplace,” noted Bill Nass, president of TCI. “We’re proud to offer a module that has been created specifically to address the unique requirements of lenders that actively use leasing. The ease of use, flexibility, and integration between the module and the DealerTrack and RouteOne platforms will

help our customers expedite loan processing, improve compliancy and reporting, and lower operating costs—.”

DecisionLender 4 is a single platform that facilitates all consumer loan origination processes including online, direct, and indirect. The platform offers a variety of tools and features that are designed to help lenders expedite loan applications, reduce risk, address compliance mandates, and improve workflows. DecisionLender 4 provides powerful analytic tools, as well as the ability to track policy exceptions, monitor reporting, and quickly adjust lending rules and workflows to maximize market opportunities without using IT resources.
