TCI to Showcase Comprehensive Online Lending Platform at Texas Consumer Finance Association Annual Convention  
*DecisionLender 4 Enables Finance Companies to Manage All Direct and Indirect Loan Origination Processes and Workflows*

**Islandia, NY, July 17, 2017** –Teledata Communications Inc. (TCI) ([www.tcicredit.com](http://www.tcicredit.com)), a provider of cloud-based loan origination solutions for credit unions, banks and finance companies, will demonstrate its advanced DecisionLender 4 cloud-based loan origination platform at the Texas Consumer Finance Association Annual Convention, taking place July 19-21 at the JW Marriott Resort in San Antonio. TCI will be located at booth #13 throughout the exhibition.

A single platform that facilitates all online, direct, and indirect consumer loan origination processes, DecisionLender 4 offers a variety of tools that help lenders expedite loan applications, reduce risk, address compliance mandates, and improve workflows. The solution delivers powerful analytics capabilities that enable lenders to refine scoring and decision parameters before bringing a lending program to market. Lenders can track policy exceptions, monitor reporting, and quickly adjust rules and

workflows to maximize market opportunities—without using IT resources.

“Finance companies around the country are recognizing that the ability to originate direct, indirect, and online loans is critical for succeeding in this highly competitive marketplace,” said Barry Kirby II, TCI’s vice president of sales. “TCI developed DecisionLender 4 for exactly this purpose. It is a highly flexible and configurable platform that is ideal for managing a wide range of loan origination workflows and processes. Through this solution, finance companies, as well as banks and credit unions, can generate more loans in less time, and at a lower cost. We’re eager to attend the Texas Consumer Finance Annual Conference, and demonstrate why DecisionLender 4 is an ideal solution for increasing loan origination performance.”
